QA Tester

WHO ARE WE?

Want to know more?
Check out our company video.

We're Own.Solutions, a digital platform that sells digital products compatible with any device you can think of.
We're everywhere – over **20,000** points-of-sale across Europe!

WHO ARE WE LOOKING FOR?

We are seeking a **Junior QA Tester** to assess software quality through manual testing.You will identify and report bugs and glitches. You should have a keen eye for detail, great communication skills, and a commitment to high-quality. You'll make sure our products, apps and all systems are working perfectly.

YOUR MISSION

- Team up with Product and Development team to plan and execute test cases
- Test applications for accuracy, integrity, and compatibility
- Help develop User Acceptance testing scenarios
- Document and report software defects, working with developers to resolve issues
- Provide input on product requirements and design

WHAT YOU BRING TO THE TABLE

- Basic experience in software/application testing
- Sharp analytical skills and attention to detail
- Great communication skills to relay and clarify test cases and outcomes
- Great organizational and time management skills
- English proficiency at C1 level

BONUS

Knowledge of Postman
Experience with end-to-end automated test scripts
Basic experience with JIRA or other bug tracking systems
Knowledge of QA testing principles and strategies

Open to students located in Rijeka
